

Garfield College Network

The Garfield College Network is a collaboration of like-minded educators committed to supporting students of all abilities and backgrounds in their college and career pathways

GHS College and Career Center

The Garfield College and Career Center works in conjunction with the Counseling Office and Garfield College Network to provide information that helps students relate school subjects to the world of work, to explore and expand post high school options, make informed post high school plans and participate in activities that will give them the skills necessary for a successful transition from high school to the next step.

Upward Bound

Upward Bound prepares high school students for higher education. The program's goal is to give students the knowledge, skills and motivation necessary to earn a two- or four-year college or technical degree by supporting academic achievement, goal setting, career exploration, and helping students choose what they want to study and what college to attend.

Y-Scholars

Each spring, Y-Scholars recruits 30 incoming freshmen of African descent who have the desire to accelerate their learning potential and prepare for postsecondary education. Students are thus automatically placed in Honors level core classes their freshman and sophomore years, preparing students for Advanced Placement classes (AP) during their junior and senior years which prepares them for future success at a four-year university. Students receive individualized college readiness support during junior and seniors years which has resulted in a 100% college acceptance rate.

Theresa Hardy (9 & 10) & Chris Rossman (11 & 12)
